Grade Rules : European Oak

European oak is native to various European countries & most commonly from countries like France, Germany, England & Belgium where forests are sustainably managed. While similar to American Oak, European generally displays a darker tone with a naturally rich and warm golden brown colour. Combine European Oak's strength & durability with the distint variation in grain structure makes for an excellent base of our Plank's offering.

Prime

This is the highest grade of European Oak often called "Prima" generally meaning of the best quality. It's nearly flawless with very few closed knots. There are no obvious character markings or colour contracts. ~50% of planking will not have knots & the balance are allowed to have knots no larger than 6mm.

Rustic A (Rustic Light)

Mix of straight & quarter sawn boards. Slight color variations allowed, no sapwood. Minimum of 25% of planks will not have knots & the blanace are allowed to have knots no larger than 20mm. Small amount of character including mineral streaks, occassional end splits & surface checking, group & sound knots.

Rustic A/B (Rustic Mix)

Mix of straight & quarter sawn boards. Slight color variations allowed. Small areas of sapwood allowed max 10mm. Knots up to 45mm. Increased amount of character including heart knots, sound & open knots, surface checking, end splits & sapwood. Most open voids will be filled.

1/2'' Thickness (12mm): 9mm Baltic Birch & 3mm Wear Layer
5/8'' Thickness (15mm): 12mm Baltic Birch & 3mm Wear Layer
3/4'' Thickness (20mm): 16mm Baltic Birch & 4mm Wear Layer
1'' Thickness (27mm): 21mm Baltic Birch & 6mm Wear Layer
